

We have a Dream...to Transform the World, One Child at a Time

***We have a dream for every child,
to make his learning years an enjoyable experience,
an exciting voyage and a journey of never ending
curiosity.***

***We have a dream to fuel all inquiring minds,
who are eager to question, and empower them to
find solutions for problems they encounter.***

***We have a dream for every child to let him
experience for himself that growth is a natural way
of life here as his inquisitive mind is set free to
explore and experiment.***

***We have a dream for every child to make her
understand that being 'Good' is just as important
as being 'Smart'.***

***We have a dream for our children to see beyond
themselves so as to actualize not only as
individuals, but also as citizens.***

***We have a dream for every child to cultivate in him
a profound belief in himself as well as to accept
and respect others and their views.***

***We have a dream for every child who learns to
understand that respect for the environment goes
beyond slogans and caring for ecology grows
beyond the seeds and saplings.***

***We have a dream for every child entering the
portals of DLF Public School where we celebrate
every child's uniqueness, and no learner is left
behind.***

***A School with A Soul. Where the Child, and not the
Institution, is at the center of the Universe.
Where they learn to think, and script their own
future.
Where they learn to become...not just be!***
